

THE FIELD RECORDING PROJECT.

A Guide for children.

Listen

What can you hear when you are outside?

Can you hear any interesting sounds?

Record

Ask an adult to help you record what you can hear. You can use a phone/ipad/microphone.

You've Just made a Field Recording!

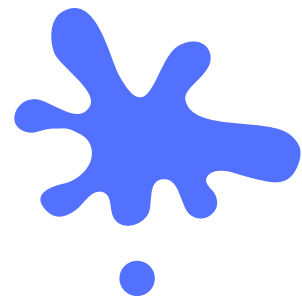

A **Field Recording** is a recording that is not made in a music studio.

Field recordings are a bit like
photographs but instead of **looking** at them, you **listen** to them!

create!

Have a go at painting or taking photographs of the place where you made your recording.

You'll need a parent/guardian to help you with this next step!

upload

When?
Where?

Visit our website, upload your field recording and photos/videos/paintings using our upload form. Remember to tell us where you took the recording so we can add it to our **sound map**!

thefieldrecordingproject.weebly.com

explore

Explore the **Sound Map** on our website and listen back to your own recording. Also listen to other field recordings made across the UK!
