

THE FIELD RECORDING PROJECT.

A Quick Guide to The Project

thefieldrecordingproject.weebly.com

THE FIELD RECORDING PROJECT is a free resource that anyone to explore and contribute to.

VISIT OUR SOUND MAP on the website and view the recordings by clicking on the red icons. Or explore our INDEX OF LOCATIONS to listen to the recordings.

RECORD YOUR ENVIRONMENT This could be from your back garden, local park, from a city centre or on a hike in the mountains. Record **anywhere** and tune into the interesting sights and sounds around you. You don't need any fancy equipment, just open up a voice memo/recording on a mobile device!

Record the environment through OTHER MEDIUMS too. We would love to publish your recording along with photos and videos of the location. The more creative you can be the better. You could even sketch, paint and make art related to the location!

UPLOAD! Visit the Upload page of our Website, drop in your recording and other files (e.g photos/videos). Ensure you also include the location the recording was taken so we can add it to the map!

SHARE YOUR EXPERIENCE We would love to see photos of you making your recordings.
